while the countries of the north had been comparitively backward in the

and the people took the Word and studied it and as a result they all were enabled to develop their personality and their individuality as they should and they went forward, and the balance of Europe was completely changed.

Until, within two centuries after the Reformation you had a complete change and Italy and Spain were comparatively backward and comparatively poor, \*\*SERTIMENTALEM

Well, naturally, Satan was not satisfied with this, and so Satan tried to bring within the Protestants countries smething similar to what he had brought into Europe someime benerks before, when he had encrusted the Word with the interpretations of man. And it came in an entirely different It came in the form of higher criticism. Beginning in France and finding its way into Germany. And this higher criticism asked this question which Satan asked, "Has God said, is this God's Word or not?" These are good points, but there are many other good points, and we have to interpret these in the light of these othersthings." And these are the things that Satan has siad in order to lead people wa away from the truth. And the result vas in Europe became overspread with this higher criticism, but America. founded by Bible believers, stood by the Word of God .... (end of H 1) (H 2) And they insisted, at Princeton Seminary, that this was what was absolutely true and was defended. William Henry Green, great professor of 01d Testament from 1900 - stood firmly against higher criticism and was resis/ting it for a period of forty years or more, writing against it and opposing it. And Princeton Seminary began to be know for sending out men who stood absolutely for the Word of God. Now in the beginning of this century the higher criticism began to get more of a spread in colleges and seminaries in America than it had bears before. At the beginning of this
