

can always rationalize, the fact is that .....found his faith, and there<sup>d</sup> were two that did that. ~~Why~~ Who stayed there and gradually became more and more pushed back into the background and got more and more unhappy until one of them tired and the other on died of a broken heart.

But the younger members of <sup>the faculty</sup> Princeton Seminary ~~went~~, when it was reorganized, said, "We<sup>d</sup> have got to get out and start a new seminary. We've got to carry on the testimony of the Word of God. We've got to make a seminary that will stand absolutely for the Word of God and carry on the wonderful traditions of Princeton Seminary." And so they came out and started a new seminary. Now ~~I~~ out of that movement, but not directly at that time, came Faith Seminary. And this is one of the roots of Faith Seminary, it is the situation that I've just described to you, but that's npt the whole story. There are other things that we must look at, which have effected the testimony, the plan, and the purpose of Faith Seminary. Before I tell you about them, I had better tell you about the next development which led on from the development of <sup>the reorganization of Princeton Seminary</sup> in 1929. Between that and the founding of Faith Seminary in ~~1927~~ 1937.

In 1927, when I graduated from Princeton Seminary, Dr. Robert Dick Wilson got the president of the American Bible Society to give a special fellowship for me to enable me to go to Germany and study in the field of semitics and Old Testament studies in order that I could carry on the work of the defense of the Word of God that Dr. Wilson was doing. And so he sent me over there, and I spent two years studying in Germany. And those two years were the last two years of the conflict of ~~a~~ Princeton Seminary. And I was in Germany, when in 1929 the decision was made by the General Assembly to merge the two boards, and the new board was formed in such a way that the liberals had control of the seminary. Well, I was in Germany <sup>studying over there</sup> studying, and ~~what~~ I got a still better idea of the currents and the .....(2 H4) in the Presbyterian ~~Church~~ Church U.S.A. because I had fellowship with other fine young chaps over there who had come from other seminaries. I remeber one other fellow who had come from McCormick Seminary, and this fellow told me a little about his career. He went to
