

It took a lot of support that we would have had if we had gone ahead -- if he had lived longer, or if --- Griffiths never dreamed that he was putting them in his will. If he had seen him again and said, We're not doing that; we're starting another place, he probably would have changed it again but who would ever think of -- that he, he may have been in his 40's, he may have been in his 50's that he would suddenly died.

We talked of starting a seminary. Dr. Harris talked. I talked. McIntire talked. Then McIntire was pastor of the big Collingswood church by this time. Finally one day in middle of summer McIntire came to me and said, We've got to do something or we won't have a seminary next year. Let's go see Dr. Laird." So we got in his car and drove to where Dr. Laird and Dr. Brumbaugh were having a conference at a place above Allentown. We drove there and they said Laird and Brumbaugh have gone to visit somebody; they won't be back till supper. Why don't you stay till supper?" We stayed for supper. In walked Mr. ~~Mace~~ Paste who was a Trustee of Westminster from Wayne, a well-to-do man and greatly interested in what we were doing. I'm not sure whether Dr. Lathem was there or not. We met and discussed the thing, and picked a name and decided to go ahead and start. Next week Dr. McIntire put a big ad in the Christian Beacon that we were starting a new seminary called Faith Theological Sem. and we wished people would make suggestions as to a place for us to meet.

~~make~~ Right at that time McIntire had been expelled --condemned by Presbytery for being a member of IBPFPM. His church was solidly behind him. They had a fine church in Collingswood that those people had built at the cost of c.\$600,000 which was an awful lot more than it is now. So Presby. declared the pulpit vacant. Six people from the congregation(tape ran out here).
