

means that it is coming into existence of something out of nothing. Otherwise it would not be creation but it would be formation. It would be forming or making something out of something. But the Bible teaches that the whole universe came into existence by the power of the Word of God when He uttered and it was done. It came into existence out of nothing. Or

(4.), the plant life and animal life defined - God said and it was done. The subdivisions and the kinds and the species if these people could agree to - they were created by God and they have been like that since then and they will continue to be like that. Because if changes were going to take place God would have told us too. But He didn't. Well, I'm not worried about that. And the Bible is not clear on that point - how, by the power of His word. ~~XXXX~~ What is the purpose of mine here? For His glory, for His honor, all the things of this world are created. What will become of us~~X~~ in the last? Those redeemed will be with God forever. Those who are not redeemed, they will be suffering punishment forever. God told us in His Word. How was man created? Man has got a material ~~XXXXX~~ substance in him. He has also got a spiritual ~~XXXXXXXXXXXX~~ substance. There is no human theory that accounts for the spiritual part of man. But here is the revelation of God that ~~says~~ that God formed man out of the fine dust of the ground and then after that breathed into his nostrils the breath of life and man became a living soul. From where did this moral and rational and spiritual consciousness come into man? ~~To~~ the breath of this spiritual personalty~~y~~ who is God. It explains and answers each and every question that baffles human intelligence God has told us. Why is there a universal consciousness of a deity? Because the Bible says the law of God is written on the hearts of man and therefore even an atheist or a person ~~XXXX~~ who denies God or tries to

(6.5) though He may be denied, yet at the same time He will be accepted. And his very denial implies his acceptance. And therefore we find that not only practically it answers all of our questions but it also gives them adequate explanations of all these big questions that so often bother us. And therefore even though there was a time I was not a saved man, most of the time I spent studying philosophy and doing those things that I should not have done as a human being. But since that time I realized that it is a great God who has created me and has given me a purpose in my life and that my eternal destiny rests in His hands that I was taught to have. And I am so glad that today I know Him as my personal Saviour and that I am not only a philosopher but a Christian philosopher. Thank you.
