Chapel 1. (6)

3.

lose it. But those enemies he says, which would not that I should reign over them, bring hither, and slay them before me. He doesn't say while I'm gone to slay them, that's not what he says, this is after he came back. But when he comes back he takes those enemies who would not that he would reign over them and brings them higher and slays them and we know that at the end of this world, all of the people will be gathered out of his kingdom. ~~Now~~

Now last Monday I trust that you all found real value in the pictures that we had. I'm sure that I did. I hope that you understood everything that he said because I trust that it was very worth hearing. Unfortunately it was a tiny bit muffled I thought, not quite as clear to understand as it might have been, but in addition to that he has a good Australian accent. Dr. Schwartz comes from Australia, he says the Americans are tone deaf. Because when he says die, we think he says die, and he really said die all the time. Personally I can't hear the difference, but to him there's a real difference between days which he pronounces dies and dies which he pronounces dies. I can't see the difference but he can, to him there's a real difference. So I wonder how many of you think you understood everything he said last Monday? Would you raise your hand? One, two, three, good. Some of you with a British background. Two of those who raised their hands had a British and naturally would understand even Australian language better because that is more like English than like United States. How many think you understood 90% of it. Even some didn't raise their hands for that. How many think you understood not much more than half of it? I guess everybody understood more than half. Well I thought it would be good to follow it up a little bit, to take some of the ideas that he gave and to dwell on them a little more this morning because I believe that what he presented was tremendously important. I'd like to relate it to this message that our Lord gave here because that is exactly what is. His citizens hated and sent a message after him saying, we will not have this man to reign over us. And I have seen Communist (8 $\frac{1}{2}$)

which have had big letters on the front of them, banish God from the heavens and capitalism from the earth. They don't do that so much now but that's what they used to put very boldly in their statement. The meaning is exactly the same today,
