Pointing out how it seemed to be a failure. His life seemed to have accomplished nothing.....Yes, he I suppose you might say as long as he's in prison there's a chance of being released and carrying on his work. If he's given a lesser judgment, his judgment might be completed and he could carry on his work but he's taken away, His life has come to an end and what's accomplished? "out of the land of the living." ~~His judgment might be completed and he could carry~~

~~XXX~~ Thirty years of wonderful teaching and what does it amount to?

Comment from floor: Reply: Yes, who can...yes, exactly....what is there to show for what he has done? What ~~attainment effected?~~ containment, effectiveness is there going to be. It's all over. Gone. The humiliation. What's ever accomplished by this? He made his grave with the wicked although he'd done no vile nor was any deceit in his mouth. I don't know why they said "because he had done no violence". Why would you make your grave with the wicked because you had done no violence? He didntt have any deceit. It's "although he had done no violence and there was no deceit in his mouth, yet he made his grave with the wicked." There's the humiliation. He died between two thieves. He made his grave with the wicked. But then, when he is dead he ~~is~~ ^{was} put in a rich man's tomb. What terrible humiliation to be put in a rich man's tomb! Don't you think that's part of the humiliation? is the exaltation. Look how exalted he is. He is put in a rich man's tomb isn't that wonderful. Would you be willing to die ~~as~~ as a criminal in order to be put in a rich man's tomb? There's no humiliation in that. There's no exaltation in that. All right, then we look for the results of it. There' is the work of cleansing.

He sprinkles many nations...he bears our griefs and sorrows...he's buried in a rich man's tomb. Do you think that his redemptive work is any greater
