

A-1 *MP*

But if we are going to serve the Lord, and have the context that He wants us to have, we have got to do some hard ~~to~~ work, ^{ting} to get down the Bible that He has given us, not being satisfied with a superficial interpretation. I know ~~of~~ some people spend their lives defending the Bible, defending a misinterpretation in something in this We need to get down on our knees and read the Word, and learn in context, and learn in the original, and see what they say, and compare the Scripture ~~si-~~ with Scripture. We need to get down there, and read the word, and learn them in context, and learn them in the original, and see what they say, and compare the Scripture with Scripture, and God has the answer to all our problems in His word. He enables us to have education in context, practical, not simply learning for the sake of learning. He enables us to have education in context/in the sense that it has impact in the immediate generation, and deals with it in an ~~in~~ effective way with the immediate problems. Oh, May He enable us to have education in right context that prepares us . . . that deal with the situations, that will enable us to accomplish for God in the days to come. Let us pray, Oh, God our Father, we thank thee for your word. We thank you that that word is true, ^{that it is} free from error, and we can trust it completely. Oh, God help us not build on superficial interpretation or misinterpretation of the word. Oh, help us not put the word of man first in context, even the word of the best man on earth, but Oh, our God, help us to study your viewpoint, and see what you can see, and to bring every problem to the light of your word what the answer is. Oh, our God, help us to be used in turning people from darkness unto light, from the power of Satan to the power of God. Help us in ~~by~~ these days ^{to} take our stand effectively, and help us do what we can to ~~not~~ hold back the forces of the apostasy and unbelief. Oh, our God, if it is your will, hold the forces of the communism that our nation be not taken away ~~by them~~ ^{yet more} as other have been, and give us ~~this time~~ ⁵ ~~the~~ to preach
