

E 2k, Continue.d

A recent discovery from Mesopotamia has given us the evidence from which we know that about twenty year period ~~has~~ elapsed between ~~his~~ Sennacherib's and return ~~and at~~ the time when he was murdered. This information could ~~b~~ not be one, ~~one~~ cannot take the two verses ~~of~~ <sup>in</sup> the statements in the Bible, because they are placed one after another, tell necessarily how much time elapsed in between.

The same is true of Genesis one one and Genesis one two. In Genesis one one, we learn that ~~God~~ <sup>the</sup> in the beginning God created ~~heaven and the earth.~~ This would seem most reasonably to mean the original creation of all matter, the establishment of ~~wh-~~ <sup>ors</sup> that ~~w~~ from which the universe is made. This may have been ~~the~~, a, this might have been, as the promulgator ~~F~~ of the solar state (or solid state) theory would have us think, would have us believe, the establishment of many great galaxies of moving away from each other constantly with new material coming to light, coming into existence ~~the~~ <sup>as</sup> gradually in between them. It might have been ~~the~~ holders of the big bang theory believe that all the ~~mater-~~ <sup>ors</sup> ter in the universe was one time got it ~~empressed-~~ compact tightly into a small area, and suddenly ~~all of sudden~~ <sup>and</sup> it exploded with a tremendous explosion ~~at~~ <sup>the</sup> within ~~at~~ about half an hour all the elements of which the world, the universe is made, all various elements were formed, and from that time on there have been shooting out ~~regularly~~ <sup>rapidly</sup> (badly?) into all directions, forming galaxies, suns, and ~~other~~ <sup>the</sup> astronomical phenomena. Whichever interpretations we take and the Bible does not tell us, exactly tell us, whehter God has continuously created a great universe filled with galaxies, and suns, and planets, or ~~the~~
