But with the knap I saw over here to the right, a little green ~~xcircle~~, so I walked about an hour and a half over that way and down into a gully, and all that it was a dike ~~k-was~~ that the Indians had put across there and there had been no rain then you find on the map that we have, when you find an indication of a source you ~~x~~..it is there and ~~depe~~-dependable, ~~and then~~ but I looked and found another little green circle over a little bit further, and I walked a bit further and ~~x~~ again you had two or three different ~~kk~~ hills to get across, ~~and~~ and it was getting dark.
