

their canteen and ~~they~~ so I told them my plight and one of them handed me their canteen and the water in it was all rusty, and I just couldn't drink into that, but the ~~ix~~ other one had some good water, and my it tasted good to get a little water, I went with the reservations back down to ~~ix~~ the reservation. I was pretty weak by this time, and we went a ~~little~~ little ways down, and he knew where there was a little spring near the trail and he got my canteen full of water, but this 3/1/2 days with none whatever, the ~~mucus~~ mucus was so filled up that it took an hour and a half to get any through to my stomach, but eventually I got it through, and when I reached the bottom ~~some~~ someone said they didn't think I would be walking for another month, but I spent three days there drinking pineapple ~~juice~~ juice and water and after three days, I borrowed a 5 gallon can and came up again and went out to the end and ~~start~~ started to ..from that end , and I planned my water just so that I made the rest of the trip and came out one night and ~~camped~~ camped overnight and had about ~~5~~ 6 miles to walk ...and so I took my ~~last~~ last bit of ~~water~~ water just a little before the time when...I got out there to ..and he came and he stopped and ~~said~~ said you want some water and he had a ^{big} ~~bit~~ can of water. And the Lord wants us to always have our buckets ~~up~~ full so that when we meet a thirsting so that when we meet a thirsting traveller, who needs the word of God we are prepared ~~to~~ to ~~give~~ give him what he needs, we are prepared to give him the water that will truly satisfy , to point him to Christ, the river of water is always available ~~flowing from~~ - it flows from the throne of God, but God wants us to use it and to be sure that we are making it ~~ix~~ available to others in order that they also may drink of the water of life and may always ..planted by the rivers of water. Let us pray .
