

some mean selfish motive back of it. Oh, she said, it was a miserable experience. But he said, I shouldn't feel too miserable about it because everybody else is just as bad! That's not much comfort. Everybody else may be just as bad but that doesn't tell you the cure for it. It shows the seriousness of the condition but it doesn't tell the cure. For the cure we have to look to the Bible where we find that Jesus gave His life to bear our sins on the cross and through Him we can be freed from the guilt of sin immediately when we put our faith on Him and are gradually freed from the power of sin as we allow Him more and more to take possession of our lives.

Let us pray: Our Father we thank you we can trust this Bible. We thank you that what it says is true, that no human attack can destroy it. Human ideas, human theories may destroy people's faith but they cannot destroy the Word of God. We thank you that if we examine the facts, the Bible passes every test. We can depend on whatever it says. Help us not to put it on the shelf and say its a wonderful book; help us to meditate on it day and night; help us to put our faith in Jesus Christ who alone can save us, and to follow Him. We ask in Jesus' Name. Amen.
