had formerly stood for. That gives you a realization that really makes you tremble to think that a great number of unthinking people are being affected by the propaganda of a comparatively small but highly disciplined group in this country.

Now I wonders if you've noticed the recent propaganda. It seems to be recognized now, - it used to be they said we couldn't win. Now they are seeing the North Vietnamese are being defeated pretty badly. Now the propaganda is -- well, Vietnam, that's one thing, but when we are finished we should get out of Asia; it's terrible we have forces in Thialand; we shouldn't interfer with any other country! I think the liberals are beginning to realize now they want out of Vietnam? Vietnam -- S. Vietnam is

South Vietnam - S. Vietnam is not going to be taken by the communists, but if we can only say everything is done; let's pull our troops back; let's destroy our munitions; let's do like we did at the end of WW I and WW II, and then they can move ahead and take the other countries. But if we today were to move out of Vietnam, they would move into Thiland. They would move into Cambodia. They would move into Burma. They would move into India. It is an £ effort that is determined to take over the entire world. And the present stage is very very important. Therefore our text becomes important to us today.

"My father, my father, the chariot of Israel and the horsemen thereof."Do you want to see America taken over by something such as came to China? Do you want to see people who never did anything against the communists testortured brutally, tortured and murdered simply because they have the possibility of leadership in the future that might prevent communist domination? Do you want to see these thing happen? Well, if you don't I'm sure you want to do the most you can to help yo ur country in the present situation. "My father, my father the chariot of Israel and the horsemen thereof."

That's a strange thing to say to Elijah, isn't it" Elijah didn't fight with horses! Elijah stood up against the king. Elijah critisized Ahab for what Ahab was doing. Yet Elisha said this to Elijah and Elisha had stood who against the kings repeatedly and on his deathbed Joash was said these things to him: "My father, my father, the chariot of Israel and the horsemen thereof." How can we help our country most? How can we live so that people will properly at the end of our lives - be they long or short - say that we have been, to see some extent at least - the chariot andhorsemen of our nation?

Well, it -- immediate service certainly is very important. I sometimes when I think of what's happening in Vietnam, I wish I was 30 yrs. younger, and could shoulder a musket and go out there and try to help. It is tremendously important -- not merely something on the other side of the world. It is something that immediately affects all of us. When I read these arguments - they say it's unfair to give college students examinations and marks. Haverford College has declared last week they won't turn over the marksto the Government any more so that they can kno w which students get good marks and which students get poor marks because that might be used as a means of determining who might be drafted. We see the influence of liberalism and of communist propaganda in this country and how far it has gone.

Actually this war is not a temporary thing. It won't be settled today. It won't be settled tomorrow. If the Vietcong should surrender tomorrow, if N. Vietnam would disappear tomorrow, there would x be communist incursions into Thiland, there would be communist
