

most people did not know about that and all the people they knew about were in a comparatively small section of the world where it was either day or night. But today of course this is perfectly obvious to us. It can be day in one section and night in another.

God knew all the signs == all the science, all the facts that man has discovered and 1000 times as much more that man has not yet discovered. He knew the end of history from the beginning. Most important He knew man's sin and wickedness and that he is bound for hell unless some way can be found for ~~him~~ him to be saved, and God in a marvelous way predicted in the OT that He would provide a way of salvation. Those in OT times looked to the sacrifices, and said, This shows God is providing a way of salvation, and we will trust in Him, they were saved just as we are saved today if we look back to what Jesus did on Calvary's cross.

It's wonderful to see these evidences. It's wonderful to know the Bible is true. The Bible says, You believe in one God. The demons believe and tremble. It's not enough to believe in the fact of God. You must put your trust in Christ. You must turn from your sin, look to Him for salvation. May God enable each one of us to be sure we have looked to Christ for salvation and been born again through His blood. Then may He enable us to give the message so that others may come to know Him as Saviour and be saved through His wonderful provision.

Let us pray: We thank you for these many evidences for the truth of Scripture. Tho wicked men may try to pervert it and Satan try to lead men astray we can stand upon any statement of the Word of God, we can depend upon it that it is true. We thank you for Jesus Christ, the wonderful Saviour, available to any who look to Him for Salvation. Help us, our Father, to make sure that we are not just repeating words but we have truly turned from sin and looked to Him for salvation. Use everyone here as a messenger to carry the message of salvation to others. We ask in Jesus' Name. Amen.
