

when a hot wind began to blow ~~s~~ south down that Araba , just at the southera end of the Araba, you will remember, this depression that comes down all the way from the Dead Sea , it represents an old earthquake fall . It ~~can~~ can be traced way ~~w~~ down through Africa too, but ~~th~~ here this hot wind blew with force and they loosed the ~~se~~ soil and the wind picked it up and their hair got full of soil. It got in their ears , it got in their nose and their mouth, and the wind would just take the earth and carry it up out to ~~a~~ sea. They said they could think of ~~x~~ nothing ~~but~~ the ~~elouds~~ pillar of clouds that guided the Israelites on their way to the promised land, as they saw this earth whirling out to sea there. It was very evident that it was not just on e of the cities that just grows up, with a little bit here and a little bit there , but there was a very definite plan to it. It was not like Boston. I ~~kw~~ love to visit Boston. I love to walk, and I can start off in the evening and just walk straight ahead . I don't have to worry where I'm going because I know pretty soon I'll come past the place I started from. The roads twist so as they follow the old cow paths they will eventua~~lize~~-gely get you around there. But Wash-
ington D.C. is very different . Washington was ~~buil~~ built according to a
