

be ~~will~~ we will sign it? To my surprise there were a few who voted for this first, a few who voted for the second, and the overwhelming who voted for the third. I was greatly happy with that. One man said to me afterwards, When we saw that raising of hands, we knew that our purpose in having the meeting was accomplished, so the next day they had a signing and most of those present signed it. Now they are hoping we can have -- there can be for discussion meetings for those who claim to believe the Word of God but not to believe all of it. That things can be made public. O, I should say that that night Dr. Packer worked on it again. The next day when I saw \_\_\_\_\_, I thought the previous one was excellent, and I thought this one was super-excellent! I thought it really was fine. Not that it present such a great truth, but it presented it in such a way that it would be very difficult to misunderstand it, and to make clear our definite stand on which all real intelligent Christians ought to believe and stand together.

I believe that Dr. Newman posted a copy of that when we first got back and hope many of you have a chance to read it. I think it is a very excellent statement.

If time permitted I would say a little about another committee of whom Satan has tried --- Satan if he does not attack us from this side will run around and attack us from the other side. There is a very small group issuing literature like this-- called The Bible-Believer's Bulletin which makes ridiculous statements that the KJV is the Word of God. I was amazed not to find Textus Receptus mentioned anywhere in this statement. It's all about the KJV, that that is the Word of God. It says if you are going by what scholars are saying, You are putting men's activities ahead of what God has said. Stand by the KJV!
