...if it were not that in these days through the direct activity of Satan and also through the outworking of sin in the human heart, many have tried to put God out of their hearts and minds, ~~and~~ to such an extent that in great sections of our civilization today the ~~etieu-~~ attitude is taken that God doesn't exist.

People don't say that, but they act as if there was no God. And the other ~~quest-~~ question as to whether we have a revelation from God is, Is there a faithful God who ~~will make a~~ <sup>has made</sup> revelation to us. Now, ...He managed to get ...but one day

And people today are attempting to explain away the evidences of God's activity and power. You can't explain them away because ~~there-~~ there are the footprints
