

through: Next week on these 3 days keep out of this area; there are going to be manouevers with live ammunition!

I felt more as if I was in the center of war in Switzerland than any other country that I visited at that time. But Switzerland has gone through this whole century with no war at all. It has the draft far strong than most nations but it has no war. It is prepared and people know it is prepared and no one attacks it. Love is doing that for other people which will be for their welfare eventually rather than that which is a wishys-washy expressing of the feeling that in the end may result in injury and harm to them rather than doing that which is for their good.

Oh the love of God. The love we should have for God and the love we should have for one another. May God enable us to think these things through and to love the Lord our God with all our heart, and all our soul and all our might. Let us pray:

Our Father, we thank thee for the emphasis on love in the Scripture. We pray you will help us each one to truly love the Lord, and to truly love our neighbor. Not just by silly talk that exposes him to misery and suffering but by doing that which is for his good and by showing an attitude of true love for all with whom we come in contact. We ask in Jesus' Name. Amen.
