Then, a little later I heard a man named Larry Jones  
of whom I had never heard before. On the program there was with him  
Sa Stan Mooneyham<sup>n</sup>, of whom I have heard, although I don't recall just what,  
but this was a very, very interesting program in which they showed pictures  
of the refugees from Nicaragua and told about the persecution of the  
people in Nicaragua and many of the refugees fled because their sons would be  
seized in their middle or late teens and sent off to fight against the  
contras without any training<sup>n</sup> at all, and most of them died within the next few  
the  
days/ after they were taken. He showed/Indians who were being terrible  
C?  
treated by the communists there and many of whom fled, but in Honduras<sup>Honduras</sup> (ac?)  
~~they were~~ ~~was not enough~~ the people simply put them inside of an  
enclosure and kept them there as refugees, allowed them to come, and gave  
them a tiny bit of food, but there was no possibility of earning anything,  
and he said they have rain ten months of the year. The Larry Jones
