

Bab. vocalization of Hef sometimes
shows doubled letters at end of a word
(or at least hardened)

766 u lacks precision, but * is good.

The possibility of Umlaut must be
considered very strongly.

occurs in Eng. as foot - feet

foetes -
The last

syllable being lost, its e affected
tho o

// woman - women

not a case of umlaut,

but women comes from wif-men
wife of man.

Phonetics
Bergsträsser lists things nicely

Language operates most frequently with
accusative, not with nominative.
