

11/10/1919 also not used

- 1. Originally stated accent of beginning as in other Sem languages.
- 2. This leads to dropping final short vowels
- 3. Then later, due to cause mentioned above, ^{accent} shifts to end

conjunction not shared by any other Sem languages unlike what Bennett:

mirrored word in several groups to suffix:

This also an enclitic enclitic, with other features was probably responsible for the shift of the accent.
