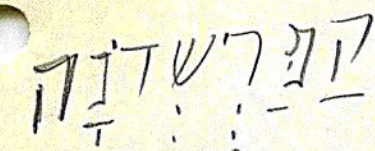
Judges 3, 22 last word.



Excrement
object

refers not to bowels, but to intestines [BDB]

also it is used of animals rather than of men.

[Kind word of v 23 may have influenced form of the word.]

Vestibule

Dr. Margolis made about 50 changes in the accepted ~~texts~~ versions. He said he might have made thousands, (one in 1 p 40 th page > three times the strength of Assyrian) had it not been so committed.

Does the last phrase in v 22 refers to the sword or to the killer?

Symmachus takes the word as "hastily"

perhaps based on Assyr. ippašid.
