

Certain grains, as a type of wild
wheat; culture of olives; certain
types of sheep -

these are the only cultural
material elements which originated in
Palestine.

"[]" is one of the words which
" "

the Egyptians borrowed from the
Semites - markaba

word found first in
dyn. XVIII

Another word for chariot in
Egyptian also. It is borrowed from a different
source.

Chariots were known in
Mesopotamia by 3000. Were
mostly 2 wheeled, though
some 4 wheeled were found
equally early.

Found in friezes of
Royal Tomb of Ur.

Animals must have been of Egyptian
origin. Behind it lay "millenia of slow adjustment"
