

Prophets 91.

Eden. He assumes it is a wilderness. He assumes they are in this condition. He does that in 51:3 and also in 52, Verse 2 and Verse 5, Verse 2 "Shake thyself from the dust; arise, O Jerusalem: loose thyself from the bands of thy neck, O captive daughter of Zion." He doesn't say: "God is going to send you into captivity and then deliver you." He assumes they are in captivity and tells them that God is going to deliver them. The standpoint is a standpoint of a time one hundred and fifty years future to the time of Isaiah. We'll look on it further tomorrow morning and the assignment for tomorrow--I don't think we need to go further into Isaiah--so we will take just six chapters for tomorrow of Jeremiah. Jeremiah 36-41.

Prophets 91
November 19, 1947

For today was Jeremiah 36 through 41. Now, for next time we'll make it from 42 on to the end of the section that we want to do this way and I think that 45 is included. So that will make only three chapters for next time and that will give you plenty of time to catch up and see if there any chapters not done and I'll collect them then next Tuesday through that point, and right there I'd like to remind you of something, not that I have any reason to think anyone has forgotten but I just want to make sure that you won't forget, and that is this and as I

the opposite of what should be correct

in that particular place, because it destroys the whole purpose of it to put checks there; that is to say, the purpose of it is to have it so that you can run your eye over it quickly and at a glance at a page you can see there is mostly review here, there is mostly blessing, there are a few problems here, there is some discussion of this and if you have checks in every case you have to look up to the top and see what the checks refer to and it multiplies three-fold the amount of time it takes to use the chart. I made that very clear I think when I explained the chart and showed how in each case I did not want checks because in past years I have received many papers with checks on them. Now I don't know that anybody put ^{any} checks
