because it is His will that, ~~this~~ His Spirit shall use the

to be accomplished./His spirit will use the word to bring unto Him those

that He has ordained unto Himself. So ~~this woned~~ wonderful, this gospel call that

We have had thus far in the Chn.

~~but~~ it is

a marvelous call and the ~~was~~ power of God is with it, and if it weren't

we could never ...~~anx~~ and my word will not return unto me emptily, ~~buf~~-

for this is quite parallel to what ~~has x just rr~~ we have just had. The rain

will not return to him until it ha ~~accomplshed~~ accomplished certain purposes.

& Similarly ~~shall~~ & His word ~~with~~ goes out will not return to him ~~empitl~~-emptily. It will no

It will accomplish the

return until or except. It has first done certain things./It will not return, ~~exe~~-
purpose for which it has been sent.

except after it has done ~~cet certain an accomplshem accomplsih~~ accomplishments.

~~But it is a thing that will be comepl completed be~~ (perfect, an accomplshishment

of a thing that is not yet accomplished.) and comes after the word going out,

but it is a thing that will be completed before the word can ever cease its activity

or its effectiveness, until it has done that which I have ...that which I have selected.

Until it has accomplished his ~~putp~~ purpose. And it has succecked in doing.

It has prospered in the thing wxhereto I have sent it. Now, again you have the

wicked, and ~~agina agin~~- again you cannot tell with ~~mor~~- much certainty whether

it is waw conversive or waw conjunctive. And if it is until--it will not return

until it has done what I have purposed, and it will prosxper, that is entirely

possible if you take it as a waw conversive, but if you take it as a waw conjunctive

--then your ~~hipth hithpael is~~- is parallel..just like above. I don't know which you

take in either case, now it might be ...that doesn't prove it to us.. There are

comparatively few cases where it is ..and it would be interesting , if there is

to know what....but ~~xx~~ both are possible. But I would like to have a little

more certainty ~~wxs~~ as to which is more likely. But I see the two possibilities.
