

I ~~did~~ did not eat dinners there. I ate only two meals a day, so although the meals were very expensive, the cost of my meals was very considerably below the ~~amount~~ amount allocated for it. The hotel expense was exactly the cost of the room, but when I came to leave they told me that there was a dollar and a half tax, which I would have to pay which of course I did not object to, but it seemed a little peculiar to pay for the room and have the bill -given to me have the amount that they would ~~have~~ were told they will pay be a dollar and a half less than what had to be paid, though I never mentioned this to anyone.

I was given a bill htat ~~it~~ could be sent in on which I should mark expenses, such as transportation, that were not paid directly by them. I Seeing how much it cost the ocuncil adnd everything, I paid my own transportation, and did not send in any bill for that. It seems to me now that it was about \$150. If os, it was much less than it costs now to got and from Chicago. Oh, yes, come to think of it, I went from Allentown, and at that time they had a rate there that was about \$100 less than if you went from ~~the~~ the Philadelphia airport, as the other members of our faculty, which included Dr. Newman, went.

When I got to the meeting they had had a meeting the day before of the members of the council I think they call it the council -- I'm not sure, anywzy they are the governing body there, about a dozen then there were about 30 advisory board members. We all met together at the hotel and sat around in a big circle. There were many people there I did not know, and a number that whom I ;knew very well, but had no chance opportunity to speak with. We sat where we happened to in a big round circle and were given a very brief discussion about the purposes of the meeting and then they numbered us off--one, two there, four, five, six, and all those having one number were given a place to which to go. We went to it and found a statement that had been worke out by, I believe, Dr. Packer and Dr. Clowney, and perhaps one or two others. We were to look it over and make suggstions. In the group with which I was included there ~~was~~ was no one whom I had ever met before, and they did not go to any effort to introduce themselves. It devleoped that the leader of the group was Dr. Hoehner of Ballas. I had heard of Dr. Hoehner as a strong advocate of the Textus Receptus, and
