

That's f. Now G is Conclusion regarding versions. And our conclusion regarding
* the versions is that God has given us a useful tool in these translations of the
Bible from various languages. ~~That's f.~~ It is ~~s~~ a useful tool but far less useful
than the ~~X~~ Hebrew Bible itself which he has caused to be ~~re~~ so remarkably preserved
better than any other work from ancient times. The Hebrew Bible is not perfectly
preserved. And any verse when you take it by itself, I admit that the possibility
of error might have come in. But you take two verses of which you have no evidence
from the versions or ~~g~~ from the Hebrew manuscript that we have of an error having
crept in, and I say that the Hebrew has been so marvelously well ~~x~~ copied and preserved
that the chances of error are in both ~~errors~~ verses without any _____ of it is very,
very flat, so the Hebrew Bible is so tremendously valuable that ~~why~~ I can't advise
people to spend a great deal of time studying versions ~~if~~ if thereby they don't spend
so ~~much~~ much time as they might on the Hebrew Bible. I do think that anybody ~~h~~
who has learned Greek for the New ~~X~~ Testament ~~x~~ can get a good deal of help from
the LXX without going into it without any tremendous ~~expe~~ expense, and anybody who
has studied Latin and knows ~~is~~ Latin can get a great deal of value from the Vulgate,
but the Hebrew Bible itself has much yet to be learned from, the study of its forms
the study of its vocabulary, the study of the mastery of the so far beyond what
~~x~~ has been done with ~~that~~ - this that the versions are very definite, and yet if we
have a particular verse, a particular problem, a particular doctrine in which three
or four verses could of tremendous importance, then we can be ~~ab~~ able to study
these through the ~~verse~~ versions, and know something about them, and of the
very great value. . . and ~~if~~ even if we know just a little Latin, and a little Greek
you can learn with the ~~sources of~~ uses of concordances and dictionaries to get
great value from the ~~x~~ verses, and in doing so ~~it~~ - you should learn a little bit
