

armies were coming down across Poland to the E. of them. And the Russian army got down about 30 mi. away and one of their units even penetrated into the suburbs of Warsaw. Then the word came over the radio from the Russians: "Poles now is your opportunity. Make your uprising. Help us to rescue Poland." And the General gave the word and they all immediately took the arms they had been gathering together during these years, and they immediately started their attacks upon the Germans and for 63 days they fought hard to win their freedom from the Germans, and the Russians stood 30 mi. away and stayed there and never made a motion during 30 days, until all the leaders of the Polish underground had been killed. The Russians were not interested in giving liberty to Poland. They were interested in getting all the leaders of old Poland killed so they could take it over and make it a satellite, make it a subject to them, make it a communist nation. They had faith. They had trust. They made their great uprising, but their faith was misplaced. And they all died.

Examine yourselves whether you be in the faith. Do you have faith in One who has the power. The Russians certainly had the power then. Do you have faith in One whose word you can trust? Do you know that the messages you get from this One are true? Are reliable? Are dependable? Do you really have faith in Him? Examine yourself whether you be in the faith.

Now if you really have faith in the One who is alone trustworthy, if you really have that faith it is going to affect your life at many many different places. Supposing that I were to tell you that the examining committee from the State which is going to visit us in Feb., that they were coming to morrow, and that they were going to look us over and see whether we were worthy of being given the right to give degrees in this state of Penna. I think you would all tomorrow be very conscious of their presence. I hope that you would not be conscious of their presence in such a way you would be self-conscious and would not really give a true picture of our life here. But I think it probably would affect the clothing you'd wear. It probably would affect the attitude, it would affect the way you were prepared; it would affect the way you were prepared with your lessons. There is a far greater and more important One than the State committee that is here every day. The Lord is here every day and the Lord is tremendously interested in what we do. We read in Heb. 11:27 that Moses by faith he forsook Egypt not fearing the wrath of the king for he endured as seeing Him who is invisible. Examine yourself whether you be in the faith. Examine yourself and
