

Since the Bible is an infinite book, it is only natural that it ~~shou~~ should contain much that we do~~x~~ not fully understand. Besides, it frequently touches on areas with which we have no direct contact, such as the historical events before the flood. Although we have no other evidence relating to these events, we can be sure that if such evidence is ever found it will fit in with what the Bible ~~says~~ says.

It is a pleasure to try to be of help to anyone who seeks light on Biblical problems, ~~in connection with the~~ - I have devoted many years to studying the ~~Bible~~ Old Testament, and am always glad to make available to God's people the information that I have gathered.

Thank you again for your gift to the Seminary. May the Lord bless you in your personal life and in your testimony to His truth.

Sincerely yours in Christ,
