Enormous rampart of beaten
clay closes in an enormous territory.
These great ramps were introduced by
the Hittites, ~~around~~ ^{by} their citadels.

Harsheth Haggajim must be where
the valley of Jezreel narrows down.

Mace suggests Π^7 ^{tribe} a corruption of
the name of some one unknown tribe.

Indo-European tribes called ~~Manda~~
Umman-manda (peoples), in cuneiform
texts. So it may refer to a specific
Indo-European group, found in the
Near East ^{at about} 1400 B.C.

3 theories of Π^7 here: (1) a corruption of name of
of nation (2) corruption of name of one tribe.
(3) a specific Indo-European group.
