

Does anybody have any idea why I didn't give Acts. Well, you see, this will be a survey of the whole New Testament except the book of Revelation. And we want to see what we can gather together and see everything that might have bearing on the subject. (end of record)

Record 5

✠ This whole record is nothing except discussing the assignment.

Nothing worth typing.

I am always afraid of the attitude developing that I give you the conclusions and you take them and go out and follow them... That is a grand thing for the Lord to do, to give us what the truth is and we take it and go out. But I don't ~~want~~ want you to take it from me or from any other man. I want you to take what the Word says. And so, for the sake of saving time, I have to give you quite a few results without you going through all the time and effort of getting them yourself. But, in general, I like to work on the method that you are getting things from the ~~Scriptures~~ Scriptures, and that you are ~~getting~~ doing the thinking, with a certain amount of direction. I like to do it that way because it means so much more to you in the future, to learn to get your truth from the Scripture, rather than taking what I give you. I may be mistaken on some points, but the question is, what does the Word say? And so, if you don't altogether understand what you think I would like you ~~to~~ to do on this assignment, and on the passages mentioned, in the length of time, do what you think may be better than what I would have in mind. We will consider it ~~together~~ together and see. And we will examine the different passages. (The class is to go through the first 21 chapters of Acts, and some other N.T. passages which were assigned, and get any principles or problems of Ch. govt. that they can find)

Now I want to take a little time to resume what we said last week, which I think was quite important.(end of record)

Record 6

Four words. Two Greek words and two Hebrew words. The one Greek word, *menshellif*, which would be literally ~~rule~~ "rule", the word is used sixteen times
